Subject: Alton Coal Mine: No, thank you!

Dear Mr. Haddock,

After reading about the Alton Coal Mine, I'm not in favor of it. I love our area and its purity. I am a homeowner with a vested interest in this area. If it is not absolutely necessary to our economic well-being (and I don't believe that it is), then please let's forego letting a mining operation into the heart of our undeveloped land.

Thank you kindly, please feel free to contact me for verification or with any questions.
